WOLRD WET LAND DAY

World Wetlands Day is celebrated each year on 2 February to raise awareness about wetlands. This day also marks the anniversary of the Convention on Wetlands, which was adopted as an international treaty in 1971.

FILED VISIT - PLANT NURSARY

Nurseries also help to preserve and protect rare and endangered plant species by propagating and growing them in a controlled environment. In addition, they can help to educate the public about the importance of plants and the role they play in the environment.

To provide companionship, emotional support, therapeutic occupation, recreation facilities and activities to overcome social isolation. To provide independence to senior citizens in daily life, and to re-establish high values of life nurtured by them.

Visit to OLDAGE HOME
