ODUCTION

. Mahatma Gandhi once said the future of India lies in its village according to Gandhiji village are self-sufficient units he believed that peace and non-violence exist in India.

Villages are the backbone of India because most of the food crops are in villages. So literally, villages are feeding everyone.

Mahatma Gandhi once said – “The future of India lies in its villages”. According to Gandhiji, villages are self-sufficient units. He believed that peace and non-violence exist in India.

Villages are the backbone of India because most of the food crops are in villages. So literally, villages are feeding everyone.

Ecological balance is maintained by villages, because of the environment of villages. More trees, eco-friendly habits help to keep villages pollution-free. Though the times are changing and pollution levels are increasing in villages, there is a huge difference between pollution levels of villages and cities.

India's economy depends a lot upon agriculture sector. Agriculture, along with fisheries and forestry, accounts for one-third of the nation's Gross Domestic Product. Hence villages are the strength of Indian economy. India is well known for its traditional & cultural values, which can be seen more in villages. Festivals and traditional ceremonies are celebrated in villages, which are being forgotten by those who moved to cities. In villages, people have peaceful life compared to people of cities. Stress levels in the people of cities are higher comparatively. In this way also, villages can be our strength if we look back and learn from their lifestyle.

Village people have more unity, helping nature, hardworking nature. Healthy food and lifestyle of villages is being replicated in cities these days, thus making India more healthier.

Once, India was called as “Golden Bird” due to villages.

Objectives of the study

This project work has been done with an objective of understanding the village demography Programme in the village in Borigivalasa

- 1. To assess the population distribution gender wise.**
- 2. To assess sex ratio in the sample area.**
- 3. To get the information about age wise distribution.**

ABOUT VILLAGE

Borigivalasa a small village in , Narasannapeta Mandal in [Srikakulam district](#) of the [Indian state of Andhra Pradesh](#). It is surrounded by village like Borigivalsa . Our village was in erstwhile Narasannapeta but recently it moved to Narasannapeta district as part of bifurcation of districts. My village is 2.5 kilometres away from Mandal headquarter and 40 kms away from district headquarter. It is deprived of all basic amenities and other facility and purely depends on agriculture. Sugar cane and paddy are the main crops. Ponds are the main sources of water for the village.

Total area of Borigivalasa is 1 km. the population is around 2000 people. Borigivalasa has a population density of 128 inhabitants per square kilometre. There are about 600 houses in it.

When it comes to literacy, population of Narasannapeta mandal is literate, out of which 74%males and 474% females are literate. There are about 53 villages in Narasannapeta mandal, which you can browse from Narasannapeta villages list (along with gram panchayat information) below. the percentage of literacy is more or less equal to the average percentage of Mandal. No government institutes are found in the village except elementary school.

METHODOLOGY OF STUDY

PRIMARY DATA

Primary data is used by issuing a questionnaire to 50 respondents asking Implementation and impact of social welfare schemes Narasannapeta and recorded the respective responses out of 50 Respondents

The primary data was collected by means of a survey .Questionnaires were prepared and customers of the banks at the branch were approached to fill up the questionnaires .The questionnaire contains 20 questions which reflect on the type and quality of service provided by the banks to the customers .

Secondary Data:

The data gathered for the study is mainly of secondary nature. It was gathered from the official websites of Government of India and Government of AP and wikipedia.

In order to have a proper understanding a depth study was done from the various sources such as books and the articles from various search engines like Google, yahoo search and answers.com.

DATA ANALYSIS

TABLE DEPICTING GENDER ANALYSIS-1

GENDER		
		Percentage
MALE	95	49%
FEMALE	100	51%
TOTAL	195	100%

gender wise population

Interpretation

.95 members in male persons

.100 members in female persons

TABLE DEPICTING age wiseANLAYSIS-2

Age wise population	Male	Female-T	
014	20	18	38
15-30	30	43-	73
30-60	41	35	76
Above -60	2	6-	8

age wise distribution

INTERPRETATION

From the table and graph above it can be seen that

- 20% percentage 0-14 age in male
- 18% percentgae 0-14age in female
- 30% percentage 15-30 age in male
- 43% percentage in 15-30age in female
- 41% percentage in 30-60 age in male
- 35% percentage in 13- 60 age in female
- Above. 60age 2%percentage in male

- Above 60 age 6% percentage in female

TABLE DEPICTING community wise ANALYSIS-3

Community wise distribution			
Category	MALE	FEMALE – total

Principles Of Rural Development

RECOMMENDATIONS

- The above study reveals that these community groups are very inactive in using village development gateways and need to strengthen themselves by utilizing the

resources provided by state or central government and to the fullest extent.

- **Village has to improve facilities to this community and take measures to improve their financial and literacy**
- **Governments have to increase focus on village development and rural development and to reach nook and corner of society.**
- **State and central government should focus on developing cheaper and better facilities to provide affordability to the try to the Developed of to the village**

Conclusion

The study reveals the village demography programme has become an important tool to eradicate poverty in AP. It is gathering momentum to become a major force in AP. The village demography model with lending to groups of poor has become an accepted part of rural finance. Yearly base analysis was made over AP to know the performance of village development . In 2021-22 there is a good level of growth in No. of village developers . Disbursement of financial assistance by Central and State Governments to all . So it shows that the AP having good growth in village development and to be improved further. Village development of India is taking bigger initiatives to achieve village

dovelopment goals and it is designing programmes like e-kranthi which gives good results in the years to come.
