There are some technical skills I have acquired from this Internship.

I have know about how to put my knowledge and skills into practice such as mentoring. I learned how to communicated and build relationships with the people. I worked. I learned that every department or organization has its own culture. I quickly learned that every company has its own culture. I quickly learned that for a intern I disceesered its essential to be entherious and open to learning new skills. I learned that its important to communicate with teachers, Headmaster if I have any doubts asking and receiving feedback is very important. It is essential to take note of both the positive and negative points for future. I learned that some times asking for feedback or receiving feedback is difficult to hear, but it will have a significant impact on your futur career and success.

Short-term and long term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

There are also some managerial skills. I have requested from this Internship.
